Site has the characteristics of a small concentration camp. It is situated in the mountains high above a village or small town. This compound is presently overgrown and empty. Round pens, earth-covered structures or, perhaps, pits contained prisoners. At this site, in the past, captives were killed or allowed to die, possibly en masse.

Site is rising, sloping tall land with grass
and bushes. Cool and bright. Also rolling land.
Structures at the site are square and grouped
in some way. They are being made with rough
in texture and gritty. They're short. The
area wants "hot smells" and unpleasant
odor.

There are many structures / buildings at the
site, primitive in construction. The area is
primitive. The people are large, slow-moving,
wear rough clothing. There is an agrarian
feel to the site.

Groups of buildings on the base of a mountain -
green with a primitive feeling.
